Once individual round/routine is over, Competitor will step off stage until called for Group Comparisons.

Group Comparisons:

Once all competitors have completed their individual rounds, the head judge will call random competitor numbers of their choice to line up on center stage where quarter turn comparisons as well as mandatory posing comparisons will be performed. Upon completion of comparison round the head judge could call on competitors to return to stage in order to ensure proper judging and placement.

Awards Presentation Format:

Competitors will be called to stage one by one, where they will stop at center stage, strike 2-3 poses and proceed to line up on stage right/left or off stage based on the direction of the expediter until each competitor has presented herself. Expediter will then direct top 5 back on stage after all competitors complete their individual round for the Awards Presentation. Depending on the number of competitors in a class and the decision of the officials, or format of Promoter, either all competitors or the top 5 in the class will perform a 90 second routine to their chosen music. Amateurs: Please note rule for routines, only one routine will be performed if doing Crossover divisions.

Posing music must be on a flash drive, and/or emailed to the Official Event DJ prior to the Event. Posing music may not contain any vulgar lyrics. Music with vulgar or racial lyrics and tone will be prohibited.
